Statement of Patient Financial Responsibility
Southeast Texas Urology Associates, L.L.P.

The doctors of Southeast Texas Urology appreciate the confidence you have shown in choosing them to provide your urological care. We are committed to providing you with the highest quality healthcare. We ask that you read and sign this form to acknowledge your understanding of our patient financial policies.

Patient Financial Responsibilities

1. The patient (or patient's guardian, if a minor) is ultimately responsible for the payment for their treatment and care. You are responsible for knowing your own plan benefits and coverage.
2. We are pleased to assist you by billing to our contracted insurers. However, the patient is required to provide us with the most correct and updated information about their insurance, and will be responsible for any charges incurred if the information provided is not correct or updated.
3. Patients are responsible for the payment of co-pays, coinsurance, deductible, and all other procedures or treatment not covered by their insurance plan. Payment is due prior to any surgery or at the time of service for office encounters. For your convenience, we accept cash, check, and most major credit cards.
4. If you do not know your co-pay we will collect a minimum fee of \$30.00. Our billing department will bill or credit your account accordingly after your insurance pays their portion. If you are not prepared or unable to pay your co-payment at the time of your visit, we will kindly reschedule your appointment for a more convenient time.
5. Overpayment will be refunded after all charges have been processed and paid by your insurance company. A refund check will be written and mailed within 15 days of your verbal or written request.
6. Patients may incur, and are responsible for the payment of additional charges at the discretion of Southeast Texas Urology. These charges may include (but are not limited to):
 - Charge for returned checks.
 - Charge for copying and distribution of patient medical records.
 - Charge for extensive forms completion.
 - Any costs associated with collection of patient balances.
7. If you have managed care insurance, it is your responsibility to obtain a referral. As there are hundreds of insurance plans and we do not participate with all, you need to make sure Southeast Texas Urology is part of your network.
8. Patient accounts 90 days past due will be referred to an outside billing service.

I have read, understand, and agree to the provisions of the Patient Financial Responsibility Form.

MEDICARE CLAIMS

Important Change In Lifetime Beneficiary Claim Authorization ("Signature on File") Requirements

To ensure informed consent of Medicare beneficiaries to release medical information and Medicare payment information to third party carriers (e.g. Medicaid, MediCal, private Medicare supplement insurers, etc.) physicians and suppliers must have their patients sign and date an authorization statement worded as follows:

Name of Beneficiary _____

HIC Number (Medicare Number) _____

I request that payment of authorized Medicare benefits be made either to me or on my behalf to (name of physician/supplier) for any services furnished to me by (that physician/supplier). I authorize any holder of medical information about me to be released to the centers for Medicare & Medicaid Services (CMS) and its agents any information needed to determine these benefits or the benefits payable to related services.

I understand my signature requests that payments be made and authorize release of medical information necessary to pay this claim. If item 9 on the CMS 1500 claim form is completed, my signature authorized releasing of the information to the insurance agency shown. In Medicare assigned cases, the physician or supplier agrees to accept the charge determination of the Medicare carrier as the full charge, and the patient is responsible only for the deductible, co-insurance, and non-covered services. Coinsurance and the deductible are based upon the charge determination of the Medicare carrier.

Beneficiary Signature _____

Date _____

Physicians and suppliers should ensure that new patient's "signature on file" authorizations contain this language. Established patient's authorization should be revised and resigned when the patient is next seen.

Once the physician/supplier has obtained the patient's one time authorization, he may submit any later Medicare claims on either an assigned or unassigned basis, without obtaining any additional signature of the patient.

In submitting claims, he should indicate the patient's signature space "signature on file"

In submitting claims under the signature agreement procedure, physicians and suppliers undertake to:

1. Complete and submit promptly the appropriate Medicare billing form for all services covered by the request for payment – even those in which the physician has not accepted assignment.
2. Incorporate by stamp or otherwise, information to the following effect on any bill they send to Medicare patients, "Do not use this bill for claiming Medicare benefits. A claim has been or will be submitted to Medicare on your behalf" this requirement is necessary to prevent patients from submitting duplicate claims
3. Cancel the authorization on request by the patient.
4. Make the patient signature file available for carrier inspection upon request.

Acknowledgment of Review of Notice of Privacy Practices

I have reviewed this office's Notice of Privacy Practices, which explains how my medical information will be used and disclosed. I understand that I am entitled to receive a copy of this document.
